

3. International Photo, Short Film, Animation and GameContest 2011 focussing on the Prevention of Violence against Children and Adolescents

The 3rd Photo, Short Film, Animation and GameContest 2011 has started on:
foto-film-game-contest.org.

Professionals as well as amateurs – children, adolescents and adults - can participate in the contest. The deadline for entries is October 5, 2011.

This 3rd contest deals again with the urgent issue of the Prevention of Violence against Children and Adolescents, as the prevention of violent criminal acts, emotional brutalization and mobbing are, more than ever, part of the daily work of child and youth counsellors **(for example, the behaviour of adolescents at secondary school or violent criminal acts).**

The non-profit organization »Glückliche Familie e.V.« and the »agi ArbeitsGruppe International« (agi WorkGroup International, refer to: glueckliche-familie-ev.de) initiated this contest in cooperation with universities, colleges, academies and other institutions and cooperation partners. The underlying idea is reflected in a broad range of topics.

This contest mainly calls on **professionals** to present, in their capacity as multipliers, their approach to non-violence to the public.

Expert jurors will assess the entries of the participants. New standards are set as prizes are not awarded according the principle of winning or losing which normally prevails in a violent environment.

Renowned companies are promoting the contest and the award winners with valuable prizes, see <http://www.foto-film-game-contest.org/foerderer-und-kooperationspartner/>
